Natar and Yastrobnik in hospitable surroundings

Fashion designers Dimos Natar and Tomaz Yastrobnik have created a subtle space on Kyriakou Matsi Avenue in Nicosia in which they present their creations. Baroque, empire style furniture made by Natar and Yastrobnik themselves are the components which create such hospitable surroundings where clients can admire bags, shoes and clothes considered as art pieces due to their uniqueness and diversity. Giving extreme attention to material (a characteristic of their work is knitted material) they create patch work pieces which act as reminders of vibrant architectural buildings of the past and offer creations stamped by their timelessness.
